

# Summer Internship

The Harvester Golf Club, Rhodes, Iowa,

The Harvester Golf Club is currently working with Golf Course Architect Keith Foster on a renovation project that includes a complete bunker reconstruction and detailed grading work of greens and greens surrounds, a complete regrassing of the golf course excluding greens, rebuilding tees and multiple irrigation installation projects throughout the golf course. We are looking for individuals to add to our team for the 2019 season to help us with the detail work and maintenance required to perfect the great changes made throughout the golf course.

## Educational Requirements

Enrolled in a 2 year or 4 year turf program or similar field

## Experience Requirements

prior golf course maintenance experience helpful but not required

## Special Requirements

The Harvester Golf Club is seeking applications from individuals with a great work ethic and a passion to improve themselves in education and experiences required to reach their goals on their career paths.

Interns will be exposed to all aspects of golf course maintenance, including but not limited to mowing, topdressing, sprayer and fertilizer application and calibration, bunker maintenance, small project leadership and coordination. This is a great opportunity for individuals looking to increase their experiences and exposure in the golf course maintenance industry

## Job Benefits

on site housing, uniforms provided

## Date Job is Available

April - November, 2019

## Salary

\$12-\$15 per hour
