Kennett Square Golf and Country Club (KSGCC) is an 18-hole facility located in the beautiful rolling farmlands of southern Chester County. The original 9-holes, built in 1922, was designed by renowned architect Donald Ross. The course was expanded to the present day 18-holes in 1931. A full bunker renovation project is planned for fall 2019.

KSGCC is a leader in environmental stewardship. A stream restoration project was completed in 2012 on the section of the East Branch of the Red Clay Creek that runs through the golf course. The property consists of numerous natural areas including; riparian buffers, pollinator meadows, rain gardens, and 4 bee hives.
