Nantucket Golf Club 2016 Internship

Nantucket Golf Club is a private, very exclusive golf club located on an island 30 miles out to sea off of Cape Cod. Nantucket has been continuously ranked as the “best island” and “top island” of the US and World. It is a unique and beautiful place to spend a summer. The course was designed by Rees Jones and in 2006 the club underwent a complete bunker renovation. In the spring of 2011 the club completed a brand new, state of the art practice facility. This past winter and spring we finalized construction on a new turf care management facility. Along with the new maintenance facilities, we just received a new fleet of golf carts and all new equipment. The past few off seasons we have been undergoing construction and renovation to our bunkers which consists of new Better Billy Bunker liners. We are continually improving the course and this is a great opportunity for the right student to learn new trades of the golf course management industry including new equipment, offices and facilities, irrigation software and other practices.

Interns will be exposed to all facets of golf course management. Including: daily set up in the morning, conducting morning meetings, irrigation, fertilizer applications, fertilizer calibrations, chemical applications, managing the weekly topdressing programs, hand watering practices, landscaping at the clubhouse and the clubs’ four cottages for members / guests, tournament preparation, daily meetings w/ golf course managers and more...

The interns are expected to be one of the first ones to work every day and last ones to leave. Every afternoon we have daily managers meetings where the interns are required to attend and voice any recommendations on the day and future success going forward. This is a great opportunity to build on communication skills. During these meetings, nightly irrigation will be set and this will be a great tool in the structure of the interns’ future on understanding this practice.

Benefits:

$15+ per hour and overtime is expected. Most overtime can run from 12 – 20 hours per week. 2 meals are provided daily and on days off. Housing is provided. Uniforms are provided. Housing is dormitory style and is shared with all departments throughout the club. The dormitory has a basketball court, vending machines, free washing machines, billiards table, and is only 100 yards away from our main offices.
