

Spray Technician

By Burning Tree Club, Bethesda, Maryland, August 24

Burning Tree is an 18-hole private golf club located just inside the beltway of Washington DC. Greens are native soil, 007 Bentgrass. Tees are Penncross Bentgrass. Fairways were recently renovated, converting the Fairways to a 007 and SR1150 Bentgrass blend. This position will provide an excellent opportunity to learn to manage turf through the summer stress experienced in the transition zone. Burning Tree is also set to start an 18-hole reconstruction following a Gil Hanse Master Plan in 2019.

Spray Technicians will gain experience in, chemical applications and calibration, disease identification, as well as other aspects of golf course maintenance. Spray Technicians will work closely with the Superintendent and provide input for the success of the golf course. Spray Technicians will also need to meet a professional standard as member interactions are very common and encouraged.

Educational Requirements

Enrolled in or a recent graduate from a 2-4 year turf degree or certificate program.

Experience Requirements

At least 1-2 years of golf course experience is requested

Special Requirements

We are looking for highly motivated individuals, with a good work ethic and a good knowledge of turf and the ability to manage crews.
