2nd Assistant Superintendent Position

Metropolis Country Club was established in 1922. The original 18-hole golf course, designed by Herbert Strong, was later expanded when the noted golf architect A. W. Tillinghast redesigned the course. In conjunction with Forse design, the club completed a large-scale restoration project (2014-2020), returning the course to its original design intent. Over the last 3 years the infrastructure of our operation has all been upgraded, a new irrigation system and pumphouse project was completed in 2023, and we are currently wrapping up the construction of a new, state of the art, turf care maintenance facility. The club is currently constructing an entirely new front entrance with upgraded utilities, while progressing through planning for a new parking lot and employee house project, scheduled to begin this year. This position offers a wealth of opportunity, not only in high profile turf care, but also project and construction management.
