

# Sands Point Golf Club

2025 Turfgrass  
Internship Program

### About

Sand Point Golf Club is a hidden links style gem located on the north shore of Long Island in Nassau County. Designed by A.W. Tillinghast in 1927 with recent and future restorations by Keith Foster. The 18 hole course and range/practice areas sit on 120 acres of property with 100 being high maintained turf and hazards. The course is kept to tournament like conditions daily. With a small membership at 150, play is at a minimum.

### Expectations

A golf only facility, Sands Point membership demands tournament conditions to be met on a daily basis in the NYC/Metropolitan area. Membership prides themselves on “Players Club”. Interns will leave with ability to not only grow grass but more importantly providing pure playing conditions. Interns play a vital role in achieving these goals and will be treated as an AIT. Our program offers summer internships or a 6 month program for graduates after school from May to December. The value of our fall internship includes aeration process and a full bunker renovation.

### Position

Our internship program is looking for a motivated candidate pushing themselves for setting up tournament style conditions everyday. Interns will participate in all fields of the job from course data and water management along with course set up, mowing/rolling playing surfaces, hand watering, assisting in liquid and granular chemical applications, and be involved in many small projects, including irrigation and sod work.

We will work with all students and all skill levels to create a program that benefits the student and the club. We will push you outside your comfort zone to reach your full potential. By end of summer each student will leave with a new sense of pride and confidence in their abilities.

With a successful internship, we like to keep the door open for opportunity in the future of returning. With great exposure to hosting upcoming local MGA tournaments such as USGA Senior Open qualifier in May 2025 and The Ike in 2027. The course will be undergoing a \$1m+ bunker renovation along with tee and green expansions starting September 2025.

**Hourly Pay Range:** \$17- \$21 per hour (dependent on skill and education/program)- paid weekly and overtime is unlimited. Work 6 of 7 days a week. Average 50 per week. \$1000 completion bonus at end of internship.

**Benefits:** Scholarship opportunities, lunch meals, golfing privileges, pro shop discount and encourages touring/playing golf clubs in the area. Participate in LIGCSA outings. On property housing is offered free with wifi, inhouse laundry units, full kitchen and dishwasher.

**Location:** Gold coast of Long Island near the town of Port Washington and great neighbouring towns nearby, while being a 45 minute train ride to New York City and 2 ½ hours from Montauk.
